Maryland School Counselor Association wants to highlight the amazing work school counselors are doing in the state of Maryland. Be creative, use powerpoint, Youtube, etc to highlight school counselors who have made a significant contribution to the school counseling profession through advocacy, leadership, collaboration and/or systemic change. Examples of Hometown Heroes are school counselors who are applying for RAMP, started a new and innovative program at their school or in their community, created an outreach or after school program for at risk students, attend board meetings to advocate for school counselors, presents at conferences, uses data to show how their comprehensive school counseling program helped to achieve SIP goals, etc.

The information you share will be presented at the School Counselor of the Year Gala on Friday, February 7, 2020.

Deadline: January 17, 2020
